OUR MISSION

NJRSA was established in 2007 to contribute towards an improved quality of life for individuals affected by Rett syndrome, support families dealing with the disorder, increase awareness and support ongoing research for treatment and cure of Rett syndrome. With your help, this event has been able to give over \$800,000.00 to the research funds at the International Rett Syndrome Foundation, Rett Syndrome Research Trust, and the Rett Syndrome Center at the Children's Hospital at Montefiore. Our partnership with the Program for Research and Support for Rett Syndrome at Monmouth University is providing speech therapy and evaluations as well as family support and educational seminars for parents and professionals.

We look forward to your support and thank you for helping us move closer to our goal, a *cure* for Rett syndrome. Your help is our hope!
